

Tennessee 2008 Payment Schedule

Practice	No.	Practice Description	Unit	Pay Schedule
Access Rd (Ft)	560	Access from a private or public road or highway to a conservation measure (i.e., Access road needed for relocation of manure facilities or to centralized feeding facilities implemented as part of prescribed grazing system).	FT	\$10.10
Animal Mortality Facility (No)	316	Incinerator to handle mortality from less than 80,000 broilers or 60,000 breeders. Typical unit dual burning 200 lb capacity Type IV unit	No	\$6,700.00
Animal Mortality Facility (No)	316	Incinerator to handle mortality from 80,000 broilers or 60,000 breeders. Typical unit dual burning 400 lb capacity Type IV unit.	No	\$7,540.00
Animal Trails and Walkways (Ft)	575	Trail to access, improve grazing, prevent erosion, and/or protect ecologically sensitive areas.	FT	\$7.25
Channel Stabilization (Ft)	584	Middle & East TN- Stabilizing channels, using rock riprap revetments, rock jetties/JHooks, and rock weirs	Ton	\$15.25
Channel Stabilization (Ft)	584	West TN - Stabilizing channels, using rock riprap revetments, rock jetties/JHooks, and rock weirs	Ton	\$17.10
Channel Stabilization (Ft)	584	To excavate a 2:1 slope, a keyway for the rock riprap revetment, place Class I geotextile in the keyway and on the constructed slope	CY	\$1.10
Clear & Snag (Ft)	326	Debris and obstruction removal in a small width watercourse and its floodplain to remove obstructions that are causing a reduction in flow capacity	FT	\$7.10
Closure of Waste Impoundments (No)	360	Includes cost to remove manure by pumping or hauling and then earthwork associated with filling in structure	CY	\$3.05
Composting Facility (No)	317	Includes roof and concrete floors and all appurtenances.	SF	\$7.60
Comprehensive Nutrient Managment Plan	100	Beef CNMP applied to greater than 50 acres of land, and planned by 9/30/07	NO	\$500.00

Practice	No.	Practice Description	Unit	Pay Schedule
Comprehensive Nutrient Management Plan	100	Dairy CNMP applied to greater than 50 acres of land, and planned by 9/30/07	NO	\$2,000.00
Comprehensive Nutrient Management Plan	100	Poultry CNMP applied to greater than 50 acres of land, and planned by 9/30/07	NO	\$1,000.00
Comprehensive Nutrient Management Plan	100	Swine CNMP applied to greater than 50 acres of land, and planned by 9/30/17	NO	\$200.00
Comprehensive Nutrient Management Plan	100	CNMP FA initiative by acres	AC	\$0.00
Comprehensive Nutrient Management Plan	100	CNMP FA initiative by animal units	AU	\$0.00
Conservation Crop Rotation (Ac)	328	Establish and maintain sod for 5 or more years, followed by 5 years or less of crops. No-till will be used before and after sod. Soil loss must be above soil loss before application of practice and below tolerance (T) after application of rotation. Acres are not eligible for fence, alternative water, and other grazing practice cost-share for 5 years.	Ac	\$100.00
Cover Crop (Ac)	340	Cover crop - small grain and/or legumes – Eligible lands are cropland exceeding tolerance "T" on erosion and/or have a negative Soil Conditioning Index (SCI). Incentive Payment for a maximum of 100 acres for up to 3 years. No harvesting allowed except enough seed for the next year's cover crop. Feed seed cannot be used for establishment.	Ac	\$25.00
Critical Area Planting (Ac)	342	Vegetative Establishment, Switchgrass or Tall Fescue without earth moving	Ac	\$140.00

Practice	No.	Practice Description	Unit	Pay Schedule
Critical Area Planting (Ac)	342	Vegetative Establishment, NWSG (except switchgrass) or Creeping Red Fescue, Va. Wildrye, Deertounge, Lespedza without earth moving	Ac	\$165.00
Critical Area Planting (Ac)	342	Earth moving <u>moderate shaping</u> 1- 4 hrs heavy equipment for shaping and grading (See Critical Area Planting for Vegetative Establishment and Mulching for additional cost)	Ac	\$200.00
Critical Area Planting (Ac)	342	Earth moving <u>heavy shaping</u> 5 – 8 hrs heavy equipment for shaping and grading (See Critical Area Planting for Vegetative Establishment and Mulching for additional cost)	Ac	\$400.00
Dam, Diversion (Ft)	348	Diversion of water from a waterway or a stream into a different watercourse, and irrigation canal or ditch, or a water-spreading system	CY	\$1.10
Dike (Ft)	356	Installed as part of Wetland Restoration	CY	\$1.45
Diversion (Ft)	362	Diversion	CY	\$0.50
Dry Hydrant (No)	432	Includes all components to allow access water from pond, lake, water resevoir by emergency equipment.	Each	\$730.00
Fence (Ft)	382	Cross Fence in pasture landuse installed as component of Prescribed Grazing - Code 595 (6-strand maximum). Woven, board and panel fence = 6-strand fence	strand-ft	\$0.25
Fence (Ft)	382	Chainlink for Fabricated Animal Manure Storage Structure	FT	\$10.10
Field Border (Ft)	386	Field border established in NWSG or introduced grass	Ac	\$98.00
Filter Strip (Ac)	393	Filter strip established in NWSG or introduced grass	Ac	\$140.00
Firebreak (Ft)	394	Install a 16-ft wide disked firebreak (For use with Practice Code 409 only)	1000 Ft	\$5.00
Firebreak (Ft)	394	Install a 15-ft wide burned firebreak (For use with Practice Code 409 only)	1000 Ft	\$8.00
Firebreak (Ft)	394	Install a 20-ft wide wheat/legume green firebreak (For use with Practice Code 409 only)	1000 Ft	\$40.00
Forest Stand Improvement (Ac)	666	Deadening selected trees for non-game habitat creation (For use with Practice Code 409 only)	Sq Ft BA	\$1.50

Practice	No.	Practice Description	Unit	Pay Schedule
Forest Stand Improvement (Ac)	666	Felling selected trees for coarse woody debris (For use with Practice Code 409 only)	Sq Ft BA	\$5.00
Forest Stand Improvement (Ac)	666	Chemical release of advanced regeneration (For use with Practice Code 409 only)	Ac	\$49.00
Forest Stand Improvement (Ac)	666	Chemical release of selected crop trees (For use with Practice Code 409 only)	Ac	\$80.00
Forest Stand Improvement (Ac)	666	Non-commercial thinning of overstocked stand (For use with Practice Code 409 only)	Ac	\$80.00
Grade Stabilization Structure (No)	410	Large PipeDrop (>=12") w/ geotex & riprap outlet. Earthfill volume is less than 750 cy.	DIFT	\$2.90
Grade Stabilization Structure (No)	410	Small PipeDrop (=<10"). Less than 25% of earthfill hauled with pan (i.e., most earthfill pushed with dozer).	CY	\$1.40
Grade Stabilization Structure (No)	410	PipeDrop (AnySize). Greater than 75% of earthfill hauled with pan.	CY	\$2.10
Grade Stabilization Structure (No)	410	PipeDrop w/ Sand Filter & geotex and riprap outlet.	CY	\$3.15
Grade Stabilization Structure (No)	410	Rock Type Structures (Rock Chutes, Wire Panels, etc.)	Ton	\$28.50
Grassed Waterway (Ac)	412	Vegetated GrassWW - natural or constructed channel that is shaped or graded to required dimensions and established with suitable vegetation	AC	\$435.00
Heavy Use Area Protection (Ac)	561	Installation of Gravel and Geotextile. Must have CNMP or Prescribed Grazing planned as well.	SF	\$0.75
Heavy Use Area Protection (Ac)	561	Concrete - Concrete area around animal feeding operations for ingress, egress, travelways and alleys	SF	\$2.15
Heavy Use Area Protection (Ac)	561	Roof for confined year round animal feeding operations (i.e., dairy). Areas include ingress, egress, travelways and alleys necessary to transfer animals to and from milking facility and exclude runoff from entering manure collection system. CNMP required.	SF	\$2.80
Hedgerow Planting (Ft)	422	Shrub lespedeza hedgerow avg. 30' width, established to shrub lespedeza at 12# per acre. Fall temporary cover of crimson clover with nutrients applied. Lespedeza seed sown in spring on conventional seedbed without nutrients.	Ft	\$0.07

Practice	No.	Practice Description	Unit	Pay Schedule
Hedgerow Planting (Ft)	422	Established to 3 species 1/0 bare root tree seedlings, hand planted on 12 X 12 spacing (302/ac) – Fall planting of crimson clover temporary cover after cropping with nutrients applied. Seedlings planted into clover with no site preparation and without nutrients.	Ft	\$0.09
Hedgerow Planting (Ft)	422	Established to 3 species of bare root shrub seedlings. Hand planted in spring, 8 X 8 spacing (680/ac) – Fall planting of crimson clover (20#) temporary cover after cropping with nutrients applied. Seedlings planted into clover with no site preparation and without nutrients.	Ft	\$0.21
Irrigation Land Leveling (Ac)	464	Reshaping the surface of land to be irrigated to planned grades	CY	\$0.60
Irrigation Storage Reservoir (No & AcFt)	436	Embankment to store irrigation water used in conjunction with IWM (Code 449).	CY	\$1.10
Irrigation System, Microirrigation (No & Ac)	441	Drip/Trickle system w/ IWMP	AC	\$500.00
Irrigation System, Sprinkler (Ac)	442	Install improved CenterPivot w/ IWMP	AC	\$208.00
Irrigation System, Sprinkler (Ac)	442	Animal Manure Big Gun Traveler w/ CNMP	AC	\$182.00
Irrigation System, Tailwater Recovery (No)	447	Tailwater recovery structure installed on irrigated land.	CY	\$1.10
Irrigation Water Conveyance, High-Pressure, Underground, Plastic Pipeline (Ft)	430DD	In Earth - pipeline and appurtenances installed in an irrigation system	DIFT	\$1.20
Irrigation Water Conveyance, High-Pressure, Underground, Plastic Pipeline (Ft)	430DD	In Rock - pipeline and appurtenances installed in an irrigation system	DIFT	\$1.30
Irrigation Water Management (Ac)	449	Incentive to implement Irrigation Water Management Plan (IWMP). Monitors in place and records kept to more efficiently apply irrigation water. (Incentive Payment)	AC	\$5.00

Practice	No.	Practice Description	Unit	Pay Schedule
Land Clearing (Ac)	460	Clearing, grubbing, and disposing of woody vegetation from one acre of presently wooded land to accommodate the implementation of conservation practice	AC	\$2,500.00
Lined Waterway or Outlet (Ft)	468	Waterway or outlet having an erosion-resistant lining of concrete, stone, or other permanent material	LF	\$125.00
Lined Waterway or Outlet (Ft)	468	Membrane (erosion control fabric)	SF	\$1.90
Manure Transfer (No)	634	Concrete curbing placed to convey manure from HUA to storage location	LF	\$14.10
Manure Transfer (No)	634	Heavy Duty Precast or Poured in Place Concrete collection tank to transfer manure via gravity or pump from HUA to storage location	Gal	\$1.20
Manure Transfer (No)	634	Pipe to transfer manure slurry within animal waste storage system	DIFT	\$1.05
Mulching (Ac)	484	Straw roll blanket mulching on steep slopes, pinned.	Sq Yd	\$0.58
Mulching (Ac)	484	Straw spread (1.5 tons/ac) applied on steep slopes	Ac	\$208.00
Nutrient Management (Ac)	590	Soil Testing and nutrient application on pasture soil test sample units (10 acres or less). Prescribed grazing required for payment. See requirements for Prescribed Grazing (Incentive Payment)	Ac	\$5.00
Nutrient Management (Ac)	590	Precision application of nutrients on cropland by GPS established soil test sample units (10 acres or less) without yield monitoring. (Incentive Payment)	Ac	\$6.00
Nutrient Management (Ac)	590	Precision application of nutrients on cropland by GPS established soil test sample units (10 acres or less) with yield monitoring. (Incentive Payment)	Ac	\$12.00
Open Channel (Ft)	582	Constructing or improving a channel, either natural or artificial, in which water flows with a free surface.	CY	\$1.30

Practice	No.	Practice Description	Unit	Pay Schedule
Pasture and Hay Planting (Ac)	512	Establishment of Introduced grass (i.e. t. fescue, orchardgrass, red and white clover or seeded bermudagrass). Pasture Condition Score before application of the system is less 35 points. The second and third years are greater than 35 points. This practice must be done in association with Prescribed Grazing or Forage Harvest Management. Cannot have Nutrient Management payment the establishment yr.	Ac	\$100.00
Pasture and Hay Planting (Ac)	512	Establishment of NWSG or vegetative bermudagrass includes tall fescue eradication. Pasture Condition Score before application of the system is less 35 points. The second and third years are greater than 35 points. This practice must be done in association with Prescribed Grazing or Forage Harvest Management. Cannot have Nutrient Management payment the establishment yr.	Ac	\$145.00
Pasture and Hay Planting (Ac)	512	Renovation with legumes (i.e. 2 lbs. white, 7 lbs. red clover (includes 8 lbs annual lespedeza on uplands). Pasture Condition Score before application of the system is less 35 points. The second and third years are greater than 35 points. This practice must be done in association with Prescribed Grazing or Forage Harvest Management. Cannot have Nutrient Management payment the establishment yr. (See prescribed grazing incentive payment for details)	Ac	\$75.00
Pest Management	595	Biological control of Kudzu, Privet or Shrub honeysuckle with foraging animals. Requirements: Grazing plan, Cowboy math for determining paddock size and number of paddocks	Ac	\$500.00
Pipeline (Ft)	516	In Earth	DIFT	\$0.80
Pipeline (Ft)	516	In Rock	DIFT	\$2.65
Pond (No)	378	Pond for livestock w/ Livestock Exclusion and/or HUA access point	CY	\$1.10
Pond Sealing and Lining, Flexible Membrane (No)	521A	A manufactured hydraulic barrier consisting of a functionally continuous sheet of synthetic or partially synthetic, flexible material	SF	\$0.70

Practice	No.	Practice Description	Unit	Pay Schedule
Pond Sealing or Lining, Compacted Clay Treatment (No)	521D	Small farm pond or earthen manure storage(for livestock, irrigation, manure storage, or wildlife use) lined with compacted clay, distributed with tractor/disk	CY	\$3.10
Prescribed Burning (Ac)	338	Applying controlled fire to a 40-acre grass field	Ac	\$10.00
Prescribed Burning (Ac)	338	Applying controlled fire to a 5-acre grass field	Ac	\$20.00
Prescribed Forestry (Ac)	409	Variable cost for preparing non-game forest habitat plan	Ac	\$3.00
Prescribed Forestry (Ac)	409	Base cost for preparing non-game forest habitat plan	Ea	\$600.00
Prescribed Grazing (Ac)	528	5 or more Paddock Rotation (14 day grazing limit per paddock) w/ record keeping on pasture management units that are in a rotational grazing system. Pasture Condition Score before application of the system is less 35 points. The second and third years are greater than 35 points. (Incentive Payment)	Ac	\$20.00
Prescribed Grazing (Ac)	528	8 or more Paddock Rotation (7 day grazing limit per paddock) w/ record keeping on pasture management units that are in a rotational grazing system. Pasture Condition Score before application of the system is less 35 points. The second and third years are greater than 35 points. (Incentive Payment)	Ac	\$30.00
Pumping Plant (No)	533	A pumping facility installed to transfer water for a conservation need, including removing excess surface or ground water; filling ponds, ditches or wetlands; or pumping from wells, ponds, streams and other sources	HP	\$235.00
Pumping Plant (No)	533	Submersible pump for livestock water with fittings and pressure tank	Each	\$850.00
Pumping Plant (No)	533	Complete solar panel system (600 watts) to pump 1,500 - 3,500 gallons/day livestock water (does not include Watering Facility, Pipeline)	Each	\$2,800.00
Riparian Forest Buffer (Ac)	391	Planting a 35-ft buffer with 3 rows of trees	Ac	\$100.00
Riparian Forest Buffer (Ac)	391	Planting a 35-ft buffer with 2 rows of shrubs and 1 row of trees	Ac	\$157.00
Riparian Forest Buffer (Ac)	391	Naturally regenerating a 50-ft buffer by chemically managing competing vegetation	Ac	\$49.00

Practice	No.	Practice Description	Unit	Pay Schedule
Roof Runoff Structure (No)	558	Length of Gutter and Downspout	LF	\$3.45
Sediment Basin (No)	350	Basin constructed to trap sediment or debris.	CY	\$1.10
Solid/Liquid Waste Separation Facility (No)	632	A screwpress or rotary screen mechanical manure separator system to separate liquids from solids in animal manure system	No	\$18,700.00
Solid/Liquid Waste Separation Facility (No)	632	Concrete structure to settle solids to move manure liquids to animal manure storage structure	CY	\$130.00
Solid/Liquid Waste Separation Facility (No)	632	Earthen settling basin to separate manure solids in animal manure management system	CF	\$0.20
Spring Development (No)	574	Developing a spring using gravel and half a concrete septic tank as the pickup	Each	\$1,150.00
Spring Development (No)	574	Developing a spring using gravel, cpp, and a concrete collection box	Each	\$1,090.00
Stream Crossing (No)	578	Ford (rock, geo, and earthwork)	SF	\$1.60
Stream Crossing (No)	578	Concrete (West TN)	SF	\$2.75
Streambank & Shoreline Protection (Ft)	580	Middle & East TN- Stabilizing channels, using rock riprap revetments, rock jetties/JHooks, and rock weirs	Ton	\$15.20
Streambank & Shoreline Protection (Ft)	580	West TN - Stabilizing channels, using rock riprap revetments, rock jetties/JHooks, and rock weirs	Ton	\$17.00
Streambank & Shoreline Protection (Ft)	580	To excavate a 2:1 slope, a keyway for the rock riprap revetment, place Class I geotextile in the keyway and on the constructed slope	CY	\$1.10
Subsurface Drain (Ft)	606	Conduit, such as corrugated plastic tubing, tile, or pipe, installed beneath the ground surface to collect and/or convey drainage water	DIFT	\$0.40
Surface Drainage, Field Ditch (Ft)	607	Field Ditch	CY	\$1.50
Surface Drainage, Main or Lateral (Ft)	608	Main/Lateral	CY	\$1.30
TA PLANNING	910	Technical Assistance Planning	NO	\$0.00
TA DESIGN	911	Technical Assistance Design	NO	\$0.00
TA APPLICATION	912	Technical Assistance Application	NO	\$0.00
TA CHECKOUT	913	Technical Assistance Reimbursement and Construction Checkout	NO	\$0.00
Terrace (Ft)	600	Terrace	CY	\$0.50

Practice	No.	Practice Description	Unit	Pay Schedule
Tree/Shrub Establishment (Ac)	612	Planting of advance-sized tree/shrub seedlings	Ac	\$109.00
Tree/Shrub Establishment (Ac)	612	Planting 15-acre + field to pine tree/shrub seedlings	Ac	\$53.00
Tree/Shrub Establishment (Ac)	612	Planting < 15-acre field to pine tree/shrub seedlings	Ac	\$58.00
Tree/Shrub Establishment (Ac)	612	Planting 15-acre + field to hardwood tree/shrub seedlings	Ac	\$96.00
Tree/Shrub Establishment (Ac)	612	Planting < 15-acre field to hardwood tree/shrub seedlings	Ac	\$100.00
Tree/Shrub Site Preparation (Ac) formerly-Forest Site Preparation	490	Chemical treatment of grass areas to be established in trees/shrubs	Ac	\$29.00
Tree/Shrub Site Preparation (Ac) formerly-Forest Site Preparation	490	Mowing or burning of previously cropped wetland areas to be established in trees/shrubs	Ac	\$4.50
Tree/Shrub Site Preparation (Ac) formerly-Forest Site Preparation	490	Chemical treatment of cutover forest areas to be established in trees/shrubs	Ac	\$50.00
Tree/Shrub Site Preparation (Ac) formerly-Forest Site Preparation	490	Hand scalping of grassy areas to be established in trees/shrubs	Ac	\$93.00
Underground Outlet (Ft)	620	PVC plastic	DIFT	\$0.90
Underground Outlet (Ft)	620	PET Corr and lined pipe	DIFT	\$0.40
Underground Outlet (Ft)	620	MetalPipe	DIFT	\$1.35
Underground Outlet (Ft)	620	Any pipe In Rock	DIFT	\$1.30
Upland Wildlife Habitat Management (Ac)	645	Establishment of forest opening within existing woodland. Land clearing in fall with temporary cover of crimson clover (20#) and nutrients applied on conventional seedbed. Spring glyphosate treatment and short grass NWSG mixture (5.5#; 1#) no-till drilled. No nutrients needed with grass.	Ac	\$1,515.00

Practice	No.	Practice Description	Unit	Pay Schedule
Upland Wildlife Habitat Management (Ac) (Early Successional...)	645 (647)	Establishment of short grass NWSG mixture (5.5#; 1#) after fescue eradication. Fescue eradication both fall and spring treatment. NWSG no-till drilled in spring. No nutrients applied.	Ac	\$81.00
Upland Wildlife Habitat Management (Ac) (Early Successional...)	645 (647)	Establishment of tall grass NWSG mixture (5.5# ; 5# K. lespedeza). Crimson clover planted in fall behind crop as temporary cover on conventional seedbed with nutrients applied. Spring herbicide burndown. NWSG no-till drilled. No nutrients applied with grass.	Ac	\$96.00
Use Exclusion (Ac)	472	Install an exclusion-wire fence with gate to control access	Strand-Ft	\$0.25
Waste Storage Facility (No)	313	Fabricated Structure - Structures include metal tanks, concrete tanks and wet stacks	CF	\$0.75
Waste Storage Facility (No)	313	Earthen Structure	CF	\$0.15
Waste Storage Facility (No)	313	Dry Storage w/ Concrete floor (roofed footprint)	SF	\$7.60
Waste Storage Facility (No)	313	Dry Storage w/ Soil floor (roofed footprint)	SF	\$2.80
Waste Utilization (Ac)	633	Incentive Payment for surface application of liquid or dry manure. Records must be kept that demonstrate conformance with nutrient management plan.	AC	\$5.00
Waste Utilization (Ac)	633	Incentive Payment for injection application of liquid manure. Records must be kept that demonstrate conformance with nutrient management plan.	AC	\$15.00
Water & Sediment Control Basin (No)	638	Basin constructed to trap sediment and store runoff water from 10 year storm.	CY	\$1.10
Water Control Structure (No)	587	Includes all appurtenances to install a conduit pipe (PET Corr. & Lined Pipe) and flashboard riser structure.	DIFT	\$2.40
Water Control Structure (No)	587	Includes all appurtenances to install a conduit pipe (Steel CMP) and flashboard riser structure.	DIFT	\$1.35
Water Control Structure (No)	587	Includes all appurtenances to install a conduit pipe (Aluminum CMP) and flashboard riser structure.	DIFT	\$1.90
Water Control Structure (No)	587	Includes all appurtenances to install a conduit pipe (PVC) and flashboard riser structure.	DIFT	\$2.85
Water Facility (No)	614	Ball facility - A 4-ball with concrete pad and HUA around it 10 x 10	Each	\$1,060.00

Practice	No.	Practice Description	Unit	Pay Schedule
Water Facility (No)	614	Open facility - 300 gallons with concrete pad and HUA around it 10 x 10	Each	\$880.00
Water Well (Ft)	642	Drilled, Cased - Livestock well, up to 360 feet total depth, 47 feet of 6-inch casing and with well head protection	No	\$1,865.00
Water Well (Ft)	642	Well > 360 - Livestock well, greater than 360 feet total depth, 47 feet of 6-inch casing and with well head protection	LF	\$5.25
Well Decommissioning (No)	351	Hand Dug - Pump fill material and concrete to plug a 1,500 foot deep, 6-inch cased water well	LF	\$17.50
Well Decommissioning (No)	351	Drilled - Pump fill material and concrete to plug a hand dug water well	LF	\$3.75
Wetland Restoration (Ac)	657	Reforestation following crop season. Site will be hand planted with 302 2/0(advance) bare rooted (12 X 12); species planted according to hydrologic zone from 1.0 ft. contour grid. Site greater than 10.0 acres. No site preparation required. No nutrients applied. Cost does not include structures.	Ac	\$125.00
Wetland Restoration (Ac)	657	Reforestation following crop season. No site prep. Hand planted to 302/ac. One year old bare rooted hardwoods (12 X 12). Site greater than 10.0 acres. Cost does not include structures.	Ac	\$82.00
Wetland Restoration (Ac)	657	Fall site preparation of small undesirable woody vegetation by bush/bog with dozer, K/G blade and heavy disk. Hand planting of 302 one year old bare root hardwood seedlings per acre. No nutrients applied. Site greater than 10 acres.	Ac	\$177.00
Wetland Restoration (Hr) (Wetland Creation) (Hr)	657 (658)	Hydrology restoration; treatments such as shallow excavation, ditch plugs, swale establishment, nesting islands without engineering surveys/designs and do not meet other engineering standards. 200HP tractor and dirt pan capable of moving 100 cu. Yd. per hour.	Hr	\$77.00
